

ShipBob + EasyPost

On-time delivery with global coverage

ShipBob is a global omnifulfillment solution trusted by 7,000+ brands to ship orders from everywhere their customers shop. From personalized and memorable unboxing experiences to faster shipping, ShipBob provides best-in-class supply chain solutions and fulfills global orders to meet customer expectations.

End-to-end fulfillment that provides an unparalleled experience

- **2-day shipping** Rapid, on-time delivery with 2-day shipping coverage across the continental U.S. and powered by EasyPost
- **Custom packaging** Unforgettable unboxing experiences to help brands stand out and leave a lasting impression
- **Omnichannel and B2B shipping** Order fulfillment for online and offline channels as well as retail connections that enable EDI-automated workflows
- **Global fulfillment** Order fulfillment throughout the United States, United Kingdom, European Union, Canada, and Australia
- **Merchant Plus (WMS)** Flexible WMS that powers in-house operations and leverages ShipBob's global fulfillment network simultaneously
- **Open API and integrations** Pre-built integrations or build-your-own integration with ShipBob's developer friendly REST API.

#1

Best Fulfillment Technology by AdWeek's Retail Awards

I don't know what I would have done without ShipBob. With their team, their incredible warehouse management system, and their training, this just worked out so quickly and smoothly. There were no hiccups as we got everything up and running, and were able to have a huge Q4.

A partnership that delivers

ShipBob's shipping capabilities are enabled by EasyPost's Shipping API. The API's consolidated offering allows merchants to generate labels, verify addresses, and track packages in real time. In addition, access to dozens of regional carriers through EasyPost gives ShipBob the ability to adapt to a changing market and grow rapidly in any region. With an average of 99.99% uptime—even during peak season—EasyPost checked all the boxes.

Trusted by 7,000+ brands

ShipBob's full WMS solution helps merchants optimize their warehouse operations to minimize errors during the fulfillment process, all while leveraging the EasyPost API to get orders to customers on time. The flexible solution allows businesses to scale with ease.

117%
increase in pick
and pack speed

Outlaw Soaps implemented a blended fulfillment approach using ShipBob's WMS to fulfill orders in-house. The solution allowed them to scale by improving pick and pack speed, reducing errors, and getting twice as many orders out per hour.

130%
increase in
fulfillment speed

Infuz went through three shipping solutions before finding ShipBob. Now, fulfillment is so easy and efficient, they've reduced their error rate by 35% and can ship 700 orders in the time it used to take to ship 300 orders using EasyPost's Shipping API.

1,500%
growth handled
with ease

FlutterHabit exponentially increased their order volume every year, struggling to deal with through-the-roof error rates. They desperately needed a more scalable WMS. ShipBob stepped in and handled everything with ease.

From online store to customer door

ShipBob is a tech-enabled 3PL that uses a proprietary software across an extensive fulfillment network to provide customers with a cohesive experience. The company's streamlined fulfillment process partnered with EasyPost's Shipping API optimizes for time and cost, enabling a parcel delivery experience that beats expectations.
